EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Joseph Treloar on 5/23/11.

Please amend the claims as follows:

Replace Claim 32 with:

A handle comprising:

at least one holding plate which can be mounted in an opening in a thin wall such as a sheet-metal cabinet door;

a head part, for overlapping a rim of the opening of the thin wall on its outer side;

a body part which proceeds from the head part and can be pushed through the opening in the thin wall; and

a holding part which is carried by the body part, supported on the other side of the thin wall, and is separate from the body part;

wherein said holding part is formed by into holding elements which project in a flexible manner from the body part in the direction of its outer surface, each of the holding elements having a free end which has a smooth inclined surface for supporting the body part on the rim or edge of the opening without play;

wherein the two holding elements are arranged diametrical to one another and are acted upon by two coil springs; and

wherein the inclined surface of each holding element is inclined with respect to a surface of the other side of the thin wall.

Replace Claim 37 with:

The handle according to Claim 32;

wherein the holding elements are slides of rigid material which are arranged so as to be displaceable in a cylinder that is parallel to the plane of the thin wall and rectangular in cross section and are held against the force of a pressure spring by a pin arrangement that is arranged between them.

Replace Claim 52 with:

The handle according to Claim 32;

wherein the holding plate has an opening and the holding part and the body part have their own head part.

2. Claim 32 is allowable. Claims 34-46 and 52-62, previously withdrawn from consideration as a result of a restriction requirement, require all the limitations of an allowable claim. Pursuant to the procedures set forth in MPEP § 821.04(a), **the restriction requirement between inventions species, as set forth in the Office action mailed on 12/10/07, is hereby withdrawn** and claims 34-46 and 52-62 are

Art Unit: 3677

hereby rejoined and fully examined for patentability under 37 CFR 1.104. In view of the withdrawal of the restriction requirement, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

3. Cancel claims 47-51.

Allowable Subject Matter
